

Austrian *Melges24* Class Association 2017

2017 was again an active year for the Austrian Melges class.

7 boats were competing in the races in Central Europe and 1 boat has represented Austria in the World Championships in Helsinki.

We see some ups and downs in the class as some of the sailors are leaving and at the same time new owners are coming.

We can see that good promotion can also show good results. In my home club we are 5 boats now and most of them will start to race actively in 2018.

With the Europeans at Lake Garda we expect again a very active season 2018.

November 2017
