## Danish Class Report 2014

The year 2014 have yet again been an active year for the Danish Class, both on the national scene but as well on the international.

Unfortunately 2014 was also the year where the growth we have seen in class members the last year begun to slow, we have therefore not seen the increase we have hoped for, but with many initiatives in Denmark, recently the sailing league where the J70 is used, I believe we have to be glad that we still have a large fleet and being able to attract around 30 boats for a Danish Championship is something we are very happy about.

Looking at the level the Danish sailors have achieved, it is fantastic to see that a Danish boat came in third at the worlds at San Fran, and moreover two danish boats where in top 3 in the corinthian division at the Europeans in Hungary. This gives a lot of hope for 2015 where many sailors will have their big goal being the Worlds in Middelfart.

Representing Denmark at this year AGM would be member of the board Marc Wain Pedersen, which him self is a very active sailor which already have showed good skills with good result in the Europeans, and a third place in the Danish Nationals.

Sorry I myself are unable to attend this years meeting representing Denmark, but I am confident the Marc would fill out my role in the meeting in a good way.
