

# The Danish Melges24 annual report 2015

The Worlds in Middelfart, was quite good, some would even say a success. We almost had 100 boats, almost from every part of the World. Norway and Denmark were the Big hitter with participants. Almost every paying active Melges24 team in Denmark was participating.

The weather was with us all the way through, with a bit more wind it had been perfect.

The week after the Melges Worlds, Middelfart was hosting the Women Match Racing Worlds, and the weather that they had there was awful. Rain, too much wind and rain and a bit more rain. As a Dane would say, that's normal Danish summer weather. So we had quite a good week.

I've heard about one complaint, if you can call it a complaint. It was about the boats placement in the harbour that we couldn't be in one place all of us. But instead were moored all around the harbour. Søren tried to place all in one part of the harbour, but had challenge with the boats owners, who did not move.

But all in all it was the good Worlds. Middelfart Sailing Club and Match Racing Denmark did a good job hosting the Melges 24 Worlds 2015 with almost 100 boats.

Of course the Danish class had hoped for that the Worlds in Denmark had drawn new Danish Melges teams, but unfortunately we haven't felt it yet.

We have about 20 teams active, most of them in Copenhagen. The Danish Nationals 2015 had the teams from Sweden, Norway and Germany. Finally team melges.dk DEN612 got the Danish title 2015 at the Danish Nationals.

The Danish Nationals 2016 will be held on 19-21 of August.

After a year with the worlds in Denmark, the chairman of the Danish Melges Class decided to step down. So a new chairman was elected, Marc Wain Pedersen DEN 634.

Copenhagen 19/11 2015
