

International Melges 24 Class World Council AGM 2012

Submission from the German Melges 24 Class:

Regatta Regulations

1. For World and Continental Championships we propose that the number of racing days should revert to 5 or 6 days (depending on whether there is a split fleet requirement) as it was in the past and not be limited to 4 days.

Class Rules

2. In accordance to the NC voting last year, the German Class doesn't want any major technical changes for the boat.

Peter Göckel

Chairman of the German Melges 24 Class
