Slovenian Melges 24 Class Association report 2015

Statistics:

- 3 x SLO full members
- 3 Melges 24 are attending regattas.

Review of 2015:

Slovenian class was never among the numerous one, but this year we had a further decline of few ships.

- All boats were competing at various Slovenian regattas.
- 22 boats were competing at Open Slovenian National Championship
- 1 Slovenian boat was competing at Melges 24 World Championship

Future plans:

The active Slovenian melges 24 crews are delighted by enthusiasm and hospitality of Yachting Club Portoroz which is main organizer of the Slovenian national championship / European sailing series (ESS) regatta. Positive reviews of regatta also came from many foreign competitors. Organizers would like to keep the ESS status of the regatta in 2016. Italian class proposed to have the regatta as the joint event of their series. Idea was positively accepted by organizers. I see proposal as indication of trust and great organization of past events.

In 2016 we plan to attract some Croatian boats which are currently not active.

Marketing:

- SIMCA is running own web site.
- We are still looking for Class General sponsor hoping that we will find one.
