Title of the motion,
amendment, nomination

C.9.3(a)(2) MAST USE

Topics concerned

	Constitution		Events
x	Class Rules		Technical Issues
	Regatta Regulations		General Policies
	Nomination		

Current Rule:

C.9.3(a)(2). The spreader connector bar shall not be modified or changed during a regatta.

Proposed New Rule:

C.9.3(a)(2) The spreaders shall not be adjusted during a regatta.

Reason:

This change is required to allow for the different spreader root design as supplied with the Selden Mast while still covering the original masts. Not all spars will have spreader bars.
